

# Loup County

N/A

N/A

Each Nebraska county with sufficient data is represented by a dot, placed on a continuum from least health to healthiest in the nation.

The color of each dot represents data-informed groupings of counties nationwide with similar **Population Health and Well-being** or **Community Conditions** on the continuum.

**Population Health and Well-being:** Loup County does not meet the criteria to be included in the calculation for this year due to insufficient data.

**Community Conditions:** Loup County does not meet the criteria to be included in the calculation for this year due to insufficient data.

Population: 592	2025	Low NE 2025	High NE 2025	NE 2025	U.S. 2025
<b>Population Health and Well-being</b>					
Length of Life

Childcare cost (as % of median household income, two children) <sup>(1,2)</sup>	31	23	44	30	28

# Loup County

The County Health Rankings & Roadmaps data release provides a snapshot of the health of each county in two summary scores: **Population Health and Well-being** (which measures length and quality of life) and **Community Conditions** (which measure issues that can shape population health and well-being). Each county is placed on a continuum from least healthy to healthiest in the nation and is categorized into a health grouping of counties with similar summary scores. The following tables illustrate the “drivers” for the health of this county.

**What do these drivers mean?**  
The drivers indicate the measures with the greatest impact on the health of the county, according to the CHR&R model of health and county performance. Drivers labeled with a green plus sign are measures where the county performed better than the average of counties nationwide. Drivers labeled with a red minus sign could be improved and may warrant additional attention. The Direction of Impact is not determined for counties with insufficient data.

**Population Health and Well-being**  
**Drivers with the greatest impact on health, Loup County, Nebraska, 2025**

Measure	Description	Factor Category	County Value	U.S. 2025	Direction of Impact
Poor Physical Health Days	Average number of physically unhealthy days reported in past 30 days (age-adjusted)	Quality of Life	3.7	3.9	+
Poor or Fair Health	Percentage of adults reporting fair or poor health (age-adjusted)	Quality of Life	14%	17%	+
Poor Mental Health Days	Average number of mentally unhealthy days reported in past 30 days (age-adjusted)	Quality of Life	4.9	5.1	+
Low Birth Weight	Percentage of live births with low birth weight (<2,500 grams) )	Quality of Life	N/A	8.4%	N/A
Premature Death	Years of potential life lost before age 75 per 100,000 population (age-adjusted)	Length of Life	N/A	8400	N/A

**Community Conditions\***  
**Drivers with the greatest impact on health, Loup County, Nebraska, 2025**

Measure	Description	Factor Category	County Value	U.S. 2025	Direction of Impact
Some College	Percentage of adults ages 25-44 with some post-secondary education	Social and Economic Factors	73%	68%	+
Social Associations	Number of membership associations per 10,000 population	Social and Economic Factors	0.0	9.1	-
High School Completion	Percentage of adults ages 25 and over with a high school diploma or equivalent	Social and Economic Factors	100%	89%	+
Dentists	Ratio of population to dentists	Health Infrastructure	599:0	1360:1	-
Primary Care Physicians	Ratio of population to primary care physicians	Health Infrastructure	604:0	1330:1	-

\*Due to insufficient data, “Community Conditions” table excludes one or more drivers that may have greater impact on health than those included.

N/A: Not applicable due to insufficient data  
+ Green Plus: County performed better than the average of counties in the U.S.  
- Red Minus: County performed worse than the average of counties in the U.S.
